

## **WEDNESDAY 14th of July (Pre-Sprint Requirements)**

### **TEAM ACTIONS**

- Sino is setting up the Travis CI
- James is setting the Azure web services and SQL database
- James is creating and adding everyone to miro story map (everyone can edit and add then)
- README Submitted before sprint starts

### **ADRs**

- Reassess previously written ones
- Add for database
- Add for Models (Layered and MVVM)

### **USER STORY MAP (miro.com)**

- Including acceptance tests (<https://www.altexsoft.com/blog/business/acceptance-criteria-purposes-formats-and-best-practices/>)
- More than just for sprint 1 (so have an extensive backlog)

### **Setup The Git Scrum Board**

- Separate board for epics
- Add stories and assigning them
- Milestone 1
