

## User Map Meeting July 13

### TASKS

Assignees of stories must complete acceptance tests by July 14 in order to start Sprint 1

### Estimation of Sprint 1 user stories

#### REGISTRATION

##### *Outliers*

- James: Think it will be quick because I am familiar with the implementation
- Sinazo: Lots of things to cater for - uniqueness, passwords, security

##### *Resolution*

- James: will actually take longer as security i.e. passwords need to be accounted for

RESULT: 4 days

#### LOGIN

##### *Outliers*

Sinazo: Need to implement sessions and cookies for user details

##### *Resolution*

James: Did not consider sessions and cookies but still thinks will align with estimation

RESULT: 2 days

#### CREATE GROUP

##### *Outliers N/A*

RESULT: 4/5 days

#### SEARCH FOR GROUPS BY NAME

##### *Outliers*

- Stephen: Search function is quite cumbersome, understood the story as being akin to a web-search

##### *Resolution*

Misunderstanding of search functionality, agreed it will be quicker

RESULT: 4 days

## View Group Details

### *Outliers*

- Stephen: Integration is heavily dependant on other stories, will require time
- James: Assumed it would be quick as it is a standard implementation

### *Resolution*

- Stephen: Misunderstanding on the necessary integration requirements, will make it quicker
- James: Reconsidered and realised 2 days is too short

RESULT: 4 days

## SEARCH FOR USERS

### *Outliers N/A*

RESULT: 4 days

## POST (AND LOG WHO SENT) MULTIMEDIA CONTENT

### *Outliers N/A*

RESULT: 5 days
